+ How long before I can start working and earning a paycheck?

The admissions process takes as little as 24 hours. Once you've completed registration and your skill assessment, you then choose a client certification course. Realistically, it may be around 30 days or less before the class starts. Classes are typically around 30 days, but some are as little as 3 days. Once certified, you can start working immediately. Depending on how quickly you choose a class, it can take 1 to 2 months to receive your first deposit. Because you are self employed, you are in control on when and how much you work. Choose a client that has a contract that meets your needs. If you need to provide your services only during the daytime or would like a client that is open 24/7, you can choose to do so.
